

March 2020

# Bostwick Children's Center

March Theme: **Space!**

This month we will explore the universe! We will learn about different planets, rocket ships, astronauts, moons, and stars!

## Important Reminders!

Daylight Savings is March 8<sup>th</sup> (set clocks ahead one hour)

Please be sure to pack a healthy filling lunch (i.e., protein, fruit, vegetable, & grain)

Save the treats for afterschool ☺

Reusable water bottles are great to have! Please label the water bottle with your child's name.

Make sure to pack an extra set of clothes. You can leave them in your child's cubby in a Ziploc bag with their name written on it.

Be sure to take blankets home for a wash at the end of the week!

## Upcoming Fun Days!

**Crazy Hair Day- March 4 & March 5**

**PJ Day- March 12 & March 13**

**Wear Color Green Day- March 17 & March 18**

**Share Day- March 24 & March 25**

If you are thinking about a schedule change, now is the time to check in with Kayla. Summer/fall enrollment has begun!

## Funky Monkeys,

**Miss Terra**

In February, we talked a lot about being a good friend. We practiced inviting others to play, saying please and thank you, and sharing.

We loved learning about similarities and differences between each other. We learned about our favorite color, shape, and who is a boy or girl.

In March, we are looking forward to learning about space! We are going to explore the texture of the moon, explore outer space.

## Buzzing Bees,

**Ms. Nathalie**

In February, we talked about being a good friend and came up with kind words that we shared with our friends.

Our favorite thing we learned this month was exploring with watercolor vinegar onto a baking soda heart. We enjoyed what happens when we pour the vinegar onto the baking powder and made some noises, too.

Next month, we are excited to blast off into space and learn about the different planets.

## Shooting Stars,

**Miss Amanda**

In February, we talked about how to be friendly. We made button bracelets for each other and talked about how to be a friend to each other.

Our favorite thing we learned this month has been how to build/share the marble tracks together.

We are looking forward to learning about the solar system and making our own constellations!
