

## January 2019

WOW this year has flown by so fast. The focus for the year 2019 is the New Year the NEW YOU.

Clubs offered very week at CKC are cooking, sport, art, science, homework club and many more. Below are a few details that some of the clubs will offer throughout the year.

Cooking activities that promote healthy eating including: more fruits and vegetables.

Sport activities: that promote and maintain self-confidence include: thinking positive combined with positive self-talk, learn basic skills such as catching, throwing, & warm up exercises.

In case we ever need to evacuate the school we will walk the children down to the Congregational Church of Soquel. In an emergency situation our number one priority is the children's safety first and foremost. That being said we may not be able to contact families immediately as our first priority is getting the children to a safe location. Once we get everyone to a safe location we will start contacting all families.
